

# Baby TO GO

www.baby-to-go.com

Seat Make/Model/DOM \_\_\_\_\_

Expiration \_\_\_\_\_

Limits \_\_\_\_\_

## HARNESSED SEATS

- Check the harness height - at or below shoulders for rear-facing, at or above for forward-facing.
- Retainer clip should be placed at nipple line.
- Harness straps should pass a pinch test at collar bone.
- Check the recline.
- Check the LATCH limit if installing with lower anchors.

## BOOSTERS

- Shoulder belt should be over the center of the chest.
- Lap belt should fit low on hips.
- Check for head protection.
- Always re-clip safety belt when there is no child in the seat.
- Use a booster until child passes 5 Step Test - approximately 8-12 years old, 4'9"
